AWS Free Tier Enhancements

AWS has updated its Free Tier program to offer new customers up to \$200 in credits to explore over 200 services.

- Initial \$100 credit provided upon sign-up.
- Additional \$100 earned by completing activities with foundational services (e.g., Amazon EC2, Amazon Bedrock, AWS Budgets).
- Includes a 6-month free plan to evaluate services without surprise overages.
- Always Free services (Lambda, S3, DynamoDB) remain available within quotas.

Google Cloud Free Trial

Google Cloud offers a distinct two-part free offering for new users.

- Welcome Credit: \$300 in credits valid for 90 days.
- Eligibility: New accounts that haven't previously used GCP.
- Always Free Tier: Permanent monthly limits on specific products that do not expire.
- Billing: No charges incurred unless the user opts to continue after the trial or exceeds limits.

Application Steps & Deadlines

Both offers require a valid payment method for identity verification (no charges unless opted-in).

AWS credits are earned progressively through service exploration.

Google Cloud credits are available immediately upon account activation for 90 days.
