1. Executive Summary

Ranukita scanned Upwork, Freelancer, Fiverr, and Contra for automation-focused gigs. 12 gigs found matching our Python/Scraping/Bot/Integration stack.

Only 3 of 12 have confirmed budgets (from the platform itself). 9 have unconfirmed budgets — marked with '?' in the table. DO NOT quote these numbers to clients.

5 gigs are older than 2 weeks (posted before May 22) and may be closed. Focus on the 7 fresh gigs.

Fiverr and Contra returned zero results — both platforms aggressively block automated access. Manual browsing needed for those.

2. Top 5 Gigs — Fresh Only (posted last 2 weeks)

4. Data Quality Notes

- 3 of 12 budgets CONFIRMED directly from Upwork/Freelancer listing text (\$3k, \$3k, INR 12-37k)
- 9 budgets are NOT listed on the platform — marked 'Not listed' or 'Hourly'
- 3 apply URLs point to search pages (not direct gig) — need manual navigation to find exact listing
- Camofox stealth browser was DOWN (HTTP 500) — data gathered via web_search + Chrome instead
- Upwork was NOT logged in — only public search results visible
- Fiverr and Contra blocked all automated access (anti-bot)

5. Proposal Template

Hi there,

I saw your project and it matches my expertise perfectly. I am a Systems Engineer and Python developer with 8+ years of experience building automation bots, web scrapers, and API integrations — including production crypto trading bots and Telegram automation systems.

What I can deliver:

- Clean, production-ready Python code with documentation
- Automated testing and error handling
- Deployment and ongoing support if needed

I can start immediately and would love to discuss your requirements in more detail.

Best regards,

Emilio Ranucoli

6. Recommended Actions

- APPLY TODAY to #3 (Data Scraper Blockchain, \$3k confirmed) — best budget guarantee
- APPLY to #1 (Trading Signal Bot) and #2 (TG Bot Backend) — highest match scores
- Skip stale gigs (#6-10) — focus time on fresh listings
- Manually browse Fiverr and Contra (search 'Python automation' from logged-in accounts)
- Create Upwork profile portfolio items for GARYCIO bot and crypto trading bots
- Set daily 9:00 AM reminder to check new listings
