4. Recomendaciones para Emilio

Las siguientes bounties ofrecen la mejor relacion retorno/esfuerzo considerando el stack de Emilio (Python, ML, fullstack, automation).

- Priorizar bounties con score > 4.0 y esfuerzo <= 8 (impacto alto, complejidad manejable).
- Los bounties de Warpspeed (-) son los de mayor monto pero requieren Node.js/TypeScript.
- Los bounties de Memanto () son ideales para entrar rapido: challenges de integracion con frameworks populares.
- Verificar siempre que el bounty este realmente abierto antes de invertir tiempo (algunos se cierran rapido).
- Documentar cada intento en Oficina Ranuk para tracking de progreso.
